

4x4cm Test Square

DOUBLERS V2.2 ASYMMETRICAL

PRINT ON A4 PAPER

One printout will make one pair of strap doublers.

Use 4x4cm test square to verify correct print scaling (measure to outside of line).

Locations marked with crosses indicate where holes should be punched for rivets.

Info, fabrication instructions, and alternate patterns available at convergencefactor.com/doublers

Not sure if you want symmetrical or asymmetrical doublers? Check the site!
